Ground is to be broken on May 1 in New ark, N. J., for what will be one of the larges department store buildings in the United States. The firm of Hahne & Co., which is to have this great building erected for the accommodation of its ess, is already one of the largest commercial ses in New Jersey and, like the leading houses of its kind in this city, has grown up from humble beginnings. The Hahne brothers began business in 1874 at 649 and 651 Broad street and in 1879 they had only about a dozen employees. Now the firm requires a building which will rival in ground space any in the world.

The new structure will have its principal front on Broad street. Beginning at New street, it will have a Broad street frontage of 250 feet, a dept of 275 feet, mostly facing on New street and a frontage of 145 feet on Halsey street. The area of the first floor will be 57,000 square feet, or about two acres, and when the building is completed according to the architect's plans it will include about fourteen acres of floor area. It will ultimately be six

architect's plans it will include about fourteen acres of floor area. It will ultimately be six stories in height, but for the present it is to be left as a four story building until business needs force its completion. It is to be ready for occupancy on May 1, 1901.

The building is to be of the steel frame, fire-proof type with facing walls of red brick. The entire first floor front on both Broad and New streets will consist of an almost unbroken line of sheets of plate glass, giving the largest amount of show window room of any store in the country. Each plate of glass will be eighteen feet wide and the entire show window front will take 75,000 square feet of glass. The main entrance of the building will be in the centre of the Broad street front, and there will be two other entrances, one near each end of the same front. Leading to the upper floors will be four main stairways and each of these will connect with mezzanine galleries overlooking the main floor, where seats will be provided for patrons. There will be many smaller stairways for the use of employes. There will be fourteen passenger elevators, two large freight elevators and four sidewalk lifts. The building will have its own power and lighting plant and 600 electric are lights and 4,000 incandescent lamps /will be used to illuminate it. There will also be a refrigerating plant to make ice and cool the store in hot weather. The engine room with all its machinery is to be in sight from a gallery and will be built and kept as a show place. It is phicalate I that the erection of the building will take 7,000 tons of steel work, 6,000,000 bricks, 500,000 feet of flooring and 20,000 barrels of ement, and that the cost will be more than \$1,000,000.

The firm has been engaged for years in buying the various properties which the new building will the results of the state of the

1,000,000.

The firm has been engaged for years in buying the various properties which the new building will cover. Something like fifty tenants have been forced to find new quarters.

GUARDIAN CAN'T HAVE THE . BOY Chevaller Gots an Income From Mrs. Westermann, but Does Not Get Her Son.

A writ of habeas corpus which Gabriel L. Chevalier obtained to get possession of the five-year-old son of the late Mabel Westermann has been dismissed by Justice Lawrence of the Supreme Court, who leaves the child in the custody of its grandmother, Mrs. Isidora L. Manwaring. Mrs. Westermann, a young widow, went to live in the same house with Chevalier against the wishes of her mother, Mrs. Manwaring, and an estrangement followed between mother and daughter. The daughter died on June 7, 1808. She made a will

A small yellow dog ran wild in Eleventh avenue yesterday. At Sixty-eighth street he bit a six-year-old boy on the arm. James Brady a years old, of 532 West Forty-ninth street, was the second victim. James was bitten about the neck, cheek and arm. The dog finally ran to the pierat the foot of West Fifty-first street, where a policeman shot him dead.

Live Stock Market. SATURDAY, April 25.

Receipts of beeves were 941 head, all for slaughterers and exporters. No trade in live cattle. Nominally steady. Dressed beef in light demand but steady. Cables unchanged. Exports to day and tomorrow 1,555 beeves, 49 sheep and 11,975 quarters of beef.

beef.

Receipts of calves none, but there were 134 stale calves in the pens, all of which were sold at \$5.10 per 100 b. Feeling weak. City dressed reals dull at 7 c. per b.

Receipts of sheep and lambs were 1.362 head, all for Receipts of sheep and lambs were 1,382 head, all for the market; making, with the stale stock. 945 cars on sale. Demand slack, and prices fell off 10 to 25c; without a clearance of the pens. Common and medium unshorn sheep sold at \$5.00@\$5.25 per 100 \$5. fair clipped do. at \$4.50; prime clipped lambs at \$6.50@\$6.70; common unshorn do. at \$7. Dressed mutton weak at \$8@10c per \$5. dressed lambs at 10½ @15c. Receipts of hogs were 1,736 head, including a car of Western hors for the market. Feeling a trifle weak. No sales reported.

FINANCIAL AND COMMERCIAL.

SATURDAY, April 28. The weekly showing of averages by the Assoclated Banks is in the main favorable. The learing House institutions have gained over 614 millions in lawful money, and have increased their loans over \$7,000,000. The increase in the first item is sufficiently in excess of the amount required as reserve against the larger deposits, to bring the surplus up to more than \$17,000,000. This would seem to indicate a continuance of easy money at this centre, a circumstance that will logically increase the chances of a transfer of specie to Europe. Today's stock market was quiet and irregular. Sugar Refining was again the preeminent feaclosed 3% points higher than yesterday. The course of the stock after a large part of the short interest has been driven out of it creates credulity in current reports of an impending settlement of the war in the sugar refining industry.

The remainder of the list was in the main heavy. Steel and Wire declined 3 points on advices from Pittsburg that the Carnegie company is about to engage in the manufacture of products similar to the staple goods of the Steel and Wire Company. Federal Steel sold off 11/2 per cent., T. C. I., 21/2, and National Steel, 21/4 per cent. Throughout the remainder of the list the declines were as a rule limited to fractions. As has been the case all the week the trading was almost entirely professional.

As compared with the final prices of last Saturday, the majority of stocks are higher. The more important net advances are in American Sugar Refining 12% per cent., American Tobacco 3%, People's Gas 2%, Continental Tobacco 2%, Brooklyn Rapid Transit and Pennsylvania Railroad 1% each, Federal Steel and Missouri Pacific 1% each, Metropolitan Street Railway 114, New York Central and United States Leather 1% each, Anaconda Mining and Norfolk and Western 1 each, Wabash preferred %, Atchison preferred %, Burlington and Quincy and Manhattan Railway ½ per cent. each. The noteworthy declines are in Tennessee Coal and Iron 214 per cent., Reading first preferred 1%, Louisville and Nashville 14, American Tin Plate Baltimore and Ohio, Chesapeake and Ohio, Southern Pacific and Southern Railway preferred 1 each, St. Paul 1/4 and American Steel and Wire 14 per cent.

Lanier & Co., who will pay par for them.

A special meeting of stockholders of the Denver and Rio Grands Railroad Company will be held on May 15 to guarantee the Rio Grands Southern first mortgage 4 per cent bonds, held in the company's treasury, amounting to over \$2.277,000. The bonds will be sold for improvements and reling stock, the Denver and Rio Grands Company preferring this course, rather than use its own surplus, as it is impracticable to issue any more preferred stock. The company does not incur any special obligation on account of these bonds, as the Rio Grands Southern has always earned its interest.

Brown Ros & Co. and Mattland. Coppell &

account of these bonds, as the Rio Grande Southern has always earned its interest.

Brown Bros & Co. and Mattland, Coppell & Co. of New York, together with Brown, Shipley & Co. of London, will issue next month their plan for the refunding of the first mortgage divisional bonds of the Wheeling and Lake Erie Railroad into the new first mortgage consolidated 4 per cent. bonds A large proportion of the bondholders has already assented. The refunding will be followed by the listing of the various Wheeling and Lake Erie securities upon the London Stock Exchanges.

The receipts of the Government to-day were: Customs \$783,177: Internal revenue, \$1,028,268, and miscellaneous, \$49,212, a total of \$1,800,355. The disbursements were \$1,225,000, an excess of receipts over expenditures of \$635,655. The receipts of the fiscal year have been \$463,400,406 and the disbursements, \$412,221,882, an excess of receipts over expenditures of \$57,108,523.

The official count of cash in the general

The official count of cash in the general Treasury, not including the gold reserve of \$150,000,000 and \$730,678,779, in gold, silver and notes, against which certificates are outstanding and compared with that of last Saturday:

The Treasury Department to-day received bonds to the amount of \$616,550, to be exchanged for the new 2 per cent bonds of 1930 under the Refunding act. The total amount of bonds received to date is \$250,051,950.

NUTMEG ZINC

MINES COMPANY.

(Notice of Advance.)

Stock in the Nutmeg Zine Mines Company is ow selling at 40 cents per share—par value,

On May 15th the price will advance to 60

On May 15th the price will advance to 67 cents.
Do not put this opportunity off until the stock goes to par and beyond, as it will undoubtedly within a comparatively short time.

Mining stocks paid over \$0,000,000 in dividends the first quarter of this year.

There is no better investment in the world than a good mining stock—there is no mining stock so highly profitable as zinc—no zinc mines in America have a better prospect than those owned by the Nutureg Company.

Our property consists of 160 acres in Northern Arkansas, closely surrounded by such famous mines as the Morning Star. White Eagle and Silver Hollow mines.

Ample proof of the fact that our 160 acres contains an inexhaustible supply of a high grade of zinc can be easily supplied to all interested.

Give this matter your early attention and save

land in the very centres of the mining bell The work of the company thus far fully corroborates the testimony of eminent experts and competent min-

International Zinc Co., Ltd.

Net Earnings 22% per annum ; pays 12% dividends, the balance going into the surplus fund.

The demand for zinc ore in the past two weeks presents a decidedly flattering outlook for the zinc mining industry in the Missouri-Kansas district. Prices for ore have advanced, land is steadily rising in value, and the railroads are opening up new lines to reach all parts of the mining region.

As already seven-eights of all the zinc mined in the Unit'd States comes from the Missouri-Kansas zinc fields, this fact is drawing European investors to the Joplin district. An English syndicate has lately been securing much of the available mining land, and will organize a company with a paid-up capital of \$17,000,000. ore have advanced, land is steadily rising in value, and the railroads are opening up new lines to reach Joplin district. An English syndicate has lately been

\$1.00 PER SHARE,

full paid and non-assessable.

This price will be advanced within a short time, and the company reserves the right to withdraw the stock from subscription at any time.

Applications for stock should be accompanied by check to the order of the Fiscal Agents as below, and certificates will be issued in the order of application.

JOSHUA BROWN & CO.,

the testimony of eminent experts and competent mining engineers, that the Missouri-Kansas zine fields
are the most prolific zine-producing properties in the
world, and that the ore grows richer to the depth of 1100
feet, and cannot be exhausted for scores of years.
In view of these facts the international Zine Company stands as one of the most inviting and profitable mediums for a safe and permanent investment
ever before the public.
When we consider that 90 per cent, of the zinemining enterprises in the Joplin district are successes
and that this company is one of the most careful and
conservative, and therefore one of the most successful,
paying 12 per cent, dividends, with a board of officers
and directors whose honesty, integrity and business
ability stand above criticism, we can recommend the
In ternational Zine Company as a most profitable in-FISCAL AGENTS. 45-47 Wall St., New York City. 89 State Street, Boston. 421 Chestnut Street, Philadelphia. 409 The Rookery, Chicago.
